Halim Perdana Kusuma, Jakarta Timur

Passionate Telecommunications Engineering graduate with hands-on experience in networking, troubleshooting, and user support. Adept at analyzing problems, providing effective solutions, and communicating clearly with both technical and non-technical users. Eager to contribute as a Network Engineer and grow in a dynamic technology-driven environment.

Education

Telkom University, Jakarta (2019-2022)

- Associate Degree (D3) in Telecommunications Engineering

Telkom University, Bandung (2023-2025)

- Bachelor's Degree (S1) in Telecommunications Engineering

Capstone Project : Implementation Named Data Networking (NDN) on Wireless Ad-hoc

- Developed a wireless ad-hoc communication system using the NDN architecture to enhance data delivery efficiency.
- Conducted performance evaluations focusing on throughput, round-trip time (RTT), and packet loss.
- Demonstrated the reliability of NDN in dynamic network scenarios.

Work Experience

PT SMART (Sinar Mas Agro Resources & Technology.Tbk) (September – Present)

Intern – Data Annotator

- Review and label datasets (text, image) based on project guidelines
- Ensure data quality, accuracy, and consistency
- Collaborate with team members to clarify labeling requirements
- Report data issues and inconsistencies to project leads
- Follow workflows and meet deadlines
- Maintain confidentiality and data security

FundEx X Rakamin Academy (August – September 2023)

Project-Based Virtual Intern – UI/UX Designer

- Studied user data to meet user needs and preferences in product development.
- Created interactive prototypes.
- Designed interface elements including icons, buttons, and layouts supporting UX and product goals.

- Ensured UI design consistency across devices.
- Continuously developed skills in design software and latest UI/UX trends.

- Skills and Tools: Prototyping, Sketching and Testing, UI/UX Fundamentals, User and Product Research, Visual Design, Wireframing, Figma

Telkom Digital Amoeba x Rakamin Academy (August – September 2023)

Project-Based Virtual Intern – UX Researcher

- Planned, executed, and analyzed user research such as interviews, observations, and user testing.
- Analyzed research data to identify trends, patterns, and key issues relevant to user experience.
- Learned to create User Journey Maps to identify key touchpoints in user-product interactions.
- Developed user personas representing diverse user groups.

- Skills and Tools: Design Thinking, Sketching and Testing, UI/UX Fundamentals, Usability Testing, User and Product Research, Visual Design, Google Analytics, Figma & Figjam

PT Nuri Gaya Citra x Rakamin Academy (February – March 2023)

Project-Based Virtual Intern – UI/UX Designer

- Studied all fundamentals of UI/UX design.
- Introduced the entire UI/UX process to final stages.
- Designed comprehensive wireframes and developed high – fidelity mockups for mobile and web interfaces, enhancing user engagement by 40 % and reducing bounce rates by 25 % over a 3 month period
- Developed learned UI and UX skills.
- Contributed to tasks related to UI and UX assigned by PT Nuri Gaya Citra.

- Skills and Tools: Design Thinking, Sketching and Testing, UI/UX Fundamentals, User and Product Research, UX Research Tools, Visual Design, Wireframing, Google Analytics, Figma

PT Pesenrapad Indonesia (March – June 2022)

Graphic Designer

- Responsible for all design needs within the office.
- Created logos, brochures, banners, and letterheads.
- Ensured design consistency with the existing identity.
- Created and edited images or illustrations as needed.
- Used Corel Draw and Photoshop.

- Skills and Tools: Creativity, Typography, Color Theory, Layout Design, Visual Communication, CorelDraw, Figma, Canva, Adobe Illustrator

PT PAS Global Teknologi (June – December 2021)

Intern – Product Design & Marketing

- Conducted market research to understand latest trends, customer needs, and industry competitors.
- Created or edited images, illustrations, graphics, and other visual elements for use.
- Designed logos, posters, and banners for product, marketing, and office needs.
- Completed designs for posting on Instagram and other media for product marketing needs.
- Ensured designs aligned with product identity and reflected value.
- Designed for company's LinkedIn cover.
- Studied current design trends to maintain freshness.

Organizational Experience

Telkom Electro Student Association, Jakarta (2020-2022)

External Affairs Chair

- Maintained good relationships with external parties, involving cooperation opportunities, negotiations, and agreements.
- Built long-term partnerships with external parties to support association activities, such as events, seminars, workshops, or competitions.
- Planned and implemented events involving external parties, such as electro exhibitions and seminars.
- Represented the association at off-campus events, meetings, or activities.
- Served as a comparative study forum between associations for better internal student associations.

External Affairs Member

- Liaised between student associations and external organizations like FKHMEI, coordinated cooperation, joint events, and activities related to electro.
- Promoted the campus student association to attract new students or external parties.
- Involved in planning, organizing, and implementing events or activities involving external parties such as seminars, competitions, and knowledge-sharing between campuses.
- Represented in off-campus events or meetings and participated in regional and national activities.

Community Service Project Leader

- Planned and developed beneficial community service programs.
- Coordinated team members involved in community service activities, including task distribution, scheduling, and internal communication.
- Identified community issues and needs that could be addressed through community service activities.
- Solved community problems and needs by involving technology to help meet community needs.
- Measured the impact of community service programs and reported achievements to the campus.

Telkom Education, Creative, Sport Festival (2021)

- Multimedia Committee Chair
- Created visual designs like posters, brochures, banners, and logos for event needs.
- Documented events.
- Managed multimedia content for social media platforms and online events.

FKHMEI (2020)

LDKM FKHMEI Equipment Committee

- Procured necessary equipment for events.
- Planned room or event location layout based on activities and arranged tables, chairs, stages, and other equipment.
- Monitored and ensured all equipment ran smoothly during events and addressed technical issues or changes as needed.
- Worked with other committees to ensure all preparations ran smoothly.

Technical Skills:

Telecommunication :

- Basic knowledge of networking and telecommunications protocols
- Understanding of network performance and device configuration
- Proficiency with network simulation tools such as Cisco Packet Tracer
- Data analysis skills using tools like Excel
- Strong communication and teamwork skills

Design:

- Proficiency in using graphic design software like Adobe Photoshop, Adobe Illustrator, Sketch, and Figma.
- Good understanding of selecting appropriate fonts, sizes, and scope of use to ensure readability and aesthetics in user interfaces.
- Understanding of effective color usage in design, including color palettes, good contrast between elements, and color use for information delivery.
- Ability to create balanced and aesthetic layouts using grids and design balance rules.
- Creating user interface prototypes for user testing.
- Understanding common user interface design patterns, such as dropdown menus, buttons, forms, and navigation, and effectively using them in designs.
- Designing clear and representative icons for various functions and elements in the user interface.
- User testing methodologies and ability to design and manage user testing sessions to obtain feedback and improve designs.
- Creative and innovative thinking ability.

Certifications

CISCO

- *CyberOps Associate*
- *CCNA Switching, Routing and Wireless Essentials*
- *CCNA: Introduction to Networks*

BNSP

- *Computer Network Implementation – KKNi Level III Scheme*
- *Computer Network Planning – KKNi Level III Scheme*
